## HERE ARE SOME REVIEWS

*Congratulations! I know how much work something like this requires, and you should be exceptionally proud.*

**Michael Johns (Former White House Speech Writer and Policy Analyst for the Heritage Foundation)**

*Melissa, I am impressed!!! I wish every American could read this with an open mind. It motivated me, and I am pretty hard to motivate these days.(ha)*

**Brig. General Jimmy Cash (USAF Retired)**

*Melissa, BRAVO! Congratulations on some very well researched and well thought observations. I'm particularly impressed that you included the info concerning the Fair Tax proposal (I've been an advocate of that one for years .... even before Boortz's book). I'm so glad you are taking the proverbial "bull by the horns" on this very important election and I couldn't agree more with your rationale as to candidate leanings. Before reading your comments, I'd been leaning toward Fred Thompson but had not done the amount of research you have.*

**Jim Winne (SMSgt, USAF Retired)**

*Outstanding! Extraordinarily informative. I appreciate the effort you have put forth for the benefit of people like me.*
